

GOVIND SINGH PARMAR

Principal / .NET Full Stack Engineer | AI/LLM Integration | 11+ Years

✉ govindsingh095@gmail.com | ☎ +91 9602504199 | LinkedIn: [Govind Singh Parmar](#) | Pune

PROFESSIONAL SUMMARY

Principal/ Senior Full Stack Engineer with 11+ years of experience delivering enterprise applications across payments, banking, financial services, e-commerce, and SaaS domains. Recognized for technical leadership, API integration expertise, performance optimization, and end-to-end ownership from requirements through production deployment.

Currently expanding into Agentic AI, Python, OpenAI APIs, LLM application engineering, and RAG. Experienced in designing AI agents, tool/function calling, multi-agent workflows, vector-search-based knowledge systems, and AI-powered automation integrated with enterprise APIs and applications.

CORE SKILLS

- C#, Python, ASP.NET, ASP.NET MVC, ASP.NET Core, .NET 8, Web API
- React, Angular (4/5+), JavaScript, TypeScript, HTML, CSS
- SQL Server, MySQL, PostgreSQL, Oracle SQL, Dapper, Entity Framework
- Azure, Azure DevOps, CI/CD Pipelines, AWS (EC2, S3, SQS)
- REST APIs, gRPC, RabbitMQ, WCF Web Services, JSON, XML, OAuth, OKTA SSO
- Git, VS Code, Visual Studio, Crystal Reports, SDLC

AI & CLOUD EXPERTISE

- GitHub Copilot, OpenAI/LLM API Integration, Agentic AI workflows
- Developing Agentic AI applications using Python, OpenAI APIs, LLMs, RAG, and AI Agents.
- Building AI workflows with tool/function calling, multi-agent orchestration, context management, and API integration.
- Developing AI-powered solutions for DevOps automation, failure analysis, root-cause analysis, and intelligent decision support.
- ML.NET predictive solutions and automation initiatives
- Azure-based deployment pipelines and cloud modernization

PROFESSIONAL EXPERIENCE

Global Payments Inc. , Pune | Associate Lead Software Engineer | Apr 2020 – Present

- Worked with GitHub Copilot, Agentic AI, OpenAI APIs, and workflow automation.
- Using Python develop MCP server for Azure DevOps release pipeline analysis tool.
- Modernized legacy systems to .NET 8 and React, implementing gRPC and RabbitMQ-based webhook architecture and replacing Entity Framework with Dapper.
- Integrated Mastercard and Experian APIs to enable real-time risk analysis.
- Built an ML.NET solution for identifying high-risk work items and won the 2024 Hackathon.
- Led React adoption and established a learning plan for engineering teams.
- Implemented Azure DevOps CI/CD pipelines and improved performance and code quality.
- Owned requirements from gathering through production deployment and stakeholder management.

Infosys Limited, Pune | Technology Analyst | Sept 2018 – Apr 2020

- Developed Order Management solutions using .NET, Angular, Azure Web Apps, and Azure ETL tools.
- Integrated OKTA SSO, implemented role-based access control, and delivered security and performance enhancements.

Narola Infotech Solution LLP, Surat | Senior Software Developer | Jul 2017 – Sept 2018

- Developed RESTful APIs using ASP.NET Core and Entity Framework.
- Built Angular applications and worked with Azure B2C and AWS services (EC2, S3, SQS).
- Automated mailbox scanning and quotation generation workflows.

Kansoft Solution Pvt. Ltd., Udaipur | Software Developer | Feb 2015 – Jul 2017

- Developed CRM and order management systems using ASP.NET and SQL Server.
- Integrated courier APIs including FedEx, Blue Dart, Delhivery, Aramex, and Ecom.
- Designed Crystal Reports for invoices, labels, manifests, and operational reporting.

SELECTED PROJECTS

ProPay – Global Payments

Technologies: ASP.NET 4.6, C#, SQL Server, Azure DevOps, CI/CD

- Integrated CIBC banking APIs, GPAPI, EFT fund processing, and credit card payment workflows; automated testing using WinAppDriver and CI/CD pipelines.

LFBC Security Stabilization

Technologies: ASP.NET 4.6, C#, SQL Server, AJAX, OKTA

- Implemented authentication, security hardening, performance optimization, and migrated legacy components into a 3-tier architecture.

PlanPlus Plan It

Technologies: Angular 5, RxJS, Redux

- Integrated existing APIs, localization features, and financial planning workflows for advisors and clients.

Vista Quote

Technologies: ASP.NET Core MVC, C#, SQL Server, jQuery, Crystal Reports

- Automated RFQ extraction from emails, quotation generation, and customer communication workflows.

Carnival Pre Sale

Technologies: ASP.NET Core MVC, Angular, SQL Server

- Delivered event ticket booking, payment processing, QR-code validation, invoicing, and reporting features.

Study Owls

Technologies: ASP.NET Core, PostgreSQL, OAuth, Identity

- Built assignment management, online quizzes, scorecards, and support ticket modules for schools and parents.

CRM Teleshopping & Courier APIs

Technologies: ASP.NET, WCF, SQL Server, Crystal Reports

- Integrated multiple courier providers, generated tracking numbers, exposed tracking APIs, and delivered operational reporting.

Intake Learning

Technologies: ASP.NET MVC, AngularJS, Oracle SQL, REST APIs

- Developed training scheduling, attendance tracking, and external registration capabilities.

ACHIEVEMENTS & CERTIFICATIONS

- 1st Runner-Up, Pune Hackathon 2024
- Certificate of Gratitude – 5 Years Service
- Microsoft 98-361: Software Development Fundamentals

EDUCATION

- B.Tech. in Information Technology — Rajasthan Technical University (RTU), Kota | 2014 | 69.5%
- 12th RBSE | 64.46%
- 10th RBSE | 61.5%
